While many reports from Mexico that reach the White House are far from encouraging, President Taft and his cabinet are still hoping for peace. The cabinet discussed the Mexican eituation at length Friday and it was determined that this government shall "stand pat" for the present. Senator Borah sought vainly to have the house joint resolution providing for the election of senators by popular vote made the unfinished business of the senate. After a series of conferences be After a series of conferences be-tween the senate democratic leaders, some of whom later conferred with insurgent republicans, a decision was reached that the present do-nothing policy of the body must be abandoned and consideration begun of some of the important measures on which the country is demanding action. A general agreement among the democrats was reached that too much time had already been wasted since the ses-sion began and that the moment had arrived for a vigorous protest against a continuation of the dawdling tactics

of the republican leaders.

The house committee on naval affairs Wednesday voted to report favorably the Gardner resolution directing the secretary of the navy to submit all information available regarding shoe contracts for the navy. The in-quiry was prompted by the charge that a Boston firm has a monopoly in

Assistant Attorney General Robert-son, in an opinion to the game, fish and oyster commissioner, holds that the jurisdiction of the State extends three leagues from the gulf coast line instead of three miles, as is cus-tomary for the United States and all other countries. It seems that nearly every country, including the United States, claims a jurisdiction of three miles from its coast line only. The State of Texas, however, claims a jurisdiction of three leagues, 15,000 varus, or nearly eight miles. This comes through the claims of boundaries set up by the Republic of Tex-as in 1836, when jurisdiction for three loagues was established.

A conscientious, hard-working and successful clergyman writes: "I am glad to bear testimony to the pleasure and increased measure of efficiency and health that have come to me from adopting Grape-Nuts food as one of my articles of diet. "For several years I was much dis-

tressed during the early part of each day by indigestion. 'My breakfast seemed to turn sour and failed to digeat. After dinner the headache and other symptoms following the break-fast would wear away, only to return, however, next morning.

"Having heard of Grape-Nuts food, I

finally concluded to give it a trial. I made my breakfasts of Grape-Nuts with cream, toast and Postum. The re-sult was surprising in improved health and total absence of the distress that had, for so long a time, followed the morning meal.

"My digestion became once more

satisfactory, the headaches ceased, and the old feeling of energy returned. Since that time I have always had Grape-Nuts food on my breakfast

"I was delighted to find also, that reas before I began to use Grape-Nuts food I was quite nervous and be-came easily wearied in the work of preparing sermons and in study, a marked improvement in this respect resulted from the change in my diet.

"I am convinced that Grape-Nuts food produced this result and helped me to a sturdy condition of mental and physical strength.

"I have known of several persons who were formerly troubled as I was, and who have been helped as I have been, by the use of Grape-Nuts food, on my recommendation." Name given Postum Company, Battle Creek,
